

If Mrs. Rice could sum up her teaching experience in one sentence it would be: "I love my job!" Mrs. Rice is passionate about the subject and science of Psychology and considers herself to be "so blessed and fortunate" to be able to "geek out" on Psychology with well over 1000 current and former Golden Eagles over the past 13 years. A proud graduate of Flagler College (% 2004), Mrs. Rice double majored in Psychology and History and joined the FIHS faculty as our AP Psychology teacher in 2004. In that time Mrs. Rice has grown the FIHS AP Psychology program from approximately 50 students (2004-2005) to 147 students (2016-2017)--with students scoring well above the national average on the Advanced Placement exam each year (the 2016 pass rate was 84%). Mrs. Rice is so proud of the FIHS AP Psych program and hopes (and expects!) to see it continue to grow and flourish in the years to come.
